How to Play Nucvivor? Nucvivor is a loot-based RPG where you get your items from winning battles and fighting off enemies. You'll need to stay alive long enough to build up your trusty companion Colt, and with your trusty companion by your side, you'll be prepared for anything. Check out the survival guide for some great tips and tricks on how to play Nucvivor. Nucvivor: Don't Get Pissed at the Mutants The enemy you will be fighting in Nucvivor is a mutant. Mutants are a mix of flesh and cyber that comes in different shapes and sizes. They are in constant attack against you, however, your life will depend on how you perform during the different stages of the game. You'll fight the mutants to scavenge for weapon parts to build your trusty companion Colt, however, you'll need to do some "running and gunning" to survive. Don't let the mutant walk all over you as they have cybernetic enhancements and high health. It won't take long before you're surrounded, or worse, you'll be overrun. Get into a fist fight as you'll do a lot of damage to the mutants. Your trusty companion will help keep you alive until you're ready to escape. If you're a fan of Ark Survival Evolved you'll definitely like this game and vice versa. Nucvivor
